At Gila Regional Medical Center (GRMC), we are deeply committed to improving health and advancing equity in our surrounding communities. For nearly 140 years, GRMC has proudly cared for people across Southwest New Mexico. We are incredibly grateful to everyone in Grant County, Hidalgo County, and the surrounding area who entrusts us with their care. I am proud to lead Gila Regional Medical Center, where we continually strive to create a better and more vibrant future for our health system, for the patients we serve, and for our communities.

This Community Benefit Report is a small snapshot of our commitment to compassionate and equitable care. Our investments in people, equipment, facilities, and our community partners showcase our efforts to move health outcomes forward to a brighter future.

Great local care requires hard work and dedication by all of our caregivers. I am honored to lead such a bright and talented group of people. They inspire me to keep moving our Mission forward: *Providing exceptional quality, patient-centered care in healing environments.* Community health improvement will always be at the forefront of all we do.

I look forward to sharing our progress with you in the coming year.
